

Introducing the range of 3M Home Water Solutions

From utility water to drinking water,
purify every drop of water that touches you.

Do you think the water you use is pure ?

Did you know every drop of water, not just drinking water you use, needs to be pure? As we have progressed and improved the way we live, the environment around us has been compromised. This has forced us to fight a constant assault of toxic substances that are also now in our water, making it impure. If you have experienced any of the problems below, then your water is definitely impure.

PROBLEMS FACED

Sedimentation: Dirt and mud accumulate in the water system of our house. While we may not notice it, it clogs our pipelines, taps and showers.

Hardness: The presence of minerals like Calcium and Magnesium in high percentage can cause various issues in our homes. These minerals stick to pipes and fixtures, causing white scales or lime scales that are not just ugly, but result in clogging and deterioration of pipes.

Chlorine: Chlorine is commonly used to treat the water that we use at home. However when used in high concentrations, it leaves an undesirable taste and odour. This diminishes the refreshing property of pure water.

Germs: The water we drink, often has various water borne bacteria lurking in it. This causes diseases like diarrhoea. While we try to provide our families with clean drinking water, it is difficult to assure safety.

Whole House Water Softeners & Filters

Take charge of your water!

At 3M, we believe in innovation to enable progress and improve lives. So, if your water is impure, we offer **3M Home Water Solutions** for apartments and villas. The wide range of water purifiers are designed to keep you safe from harmful effects of water throughout your house.

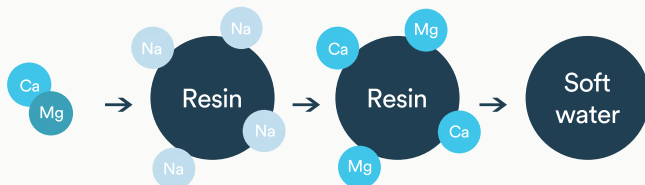

3M Technology

Hardness

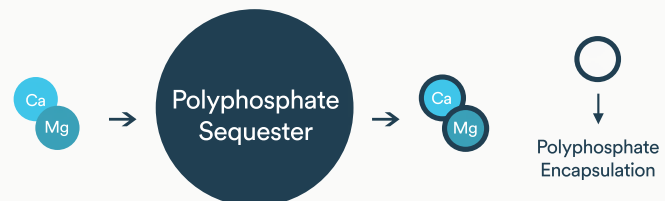

Ion-Exchange Technology

3M Fully automatic water softeners work on ion-exchange technology. High quality, long lasting resin, removes hardness causing elements giving you soft water.

Sequestering Technology

Food grade media dissolve in water and encapsulate hardness ions to make them inert. The silicates also coat pipes and fixtures to prevent internal scaling and corrosion.

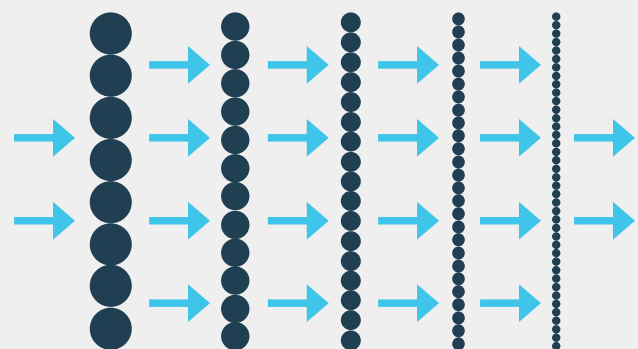

Sediment

Filtering

Thicker grooved filtration medium leads to longer life and better performance. It removes all impurities bigger than 5 microns with minimal pressure drop and prevents faster choking.

Chlorine

Pre-Activated Carbon

Adsorbs like a sponge and attracts like a magnet. It uses catalysis to capture chlorine, and provide chlorine-free and odour-free water.

Hardness

Hard water affects your home and health

Water comes from a variety of sources including borewells, tanker, etc. The quality of this water is questionable and increasingly hard.

Hard water causes a lot of damage to not just your home (taps, appliances, plumbing), but also your health (hair and skin).

Harmful effects of Hardness

Skin Damage

Hard water makes your skin dry, leading to irritation

Hair Damage

Hard water leaves salts on your hair making them rough and tangly

Scaling

Salts in hard water deposit on your fixtures and pipes, ruining the aesthetics of your kitchen and bathroom

Clogging

Hard water causes clogging in pipes harming the effectiveness of your appliances

Reduced Life of Appliances

Hard water causes scaling in pipes and heating elements harming the effectiveness of your appliances

Staining

Salts in hard water deposits on the floor making them look unclean

3M Fully Automatic Water Softeners

Product code :
SFT200, SFT200Fe

Install and Forget

With 3M Water Softeners, all you need to do is plug it in! With the auto-regeneration feature, our water softeners bring you maximum quality, with minimum intervention.

Complete Control

3M Water Softeners give you complete control with the NSF-listed, globally best-in-class, High Quality Control Valve (operation based on time and flow rate along with a built-in bypass valve).

Reliable Resin

3M Water Softeners use high-efficiency and high-performance food grade resin. A built-in strainer prevents any resin leakage, eliminating the frequent need to top up the resin.

Inspiring Design

The arc barrel body design is both aesthetic and practical. 3M Water Softeners are equipped with a damping cover for ease of access and a premium user experience.

Enhanced Function

Removes Iron (up to 3ppm) in addition to Calcium and Magnesium ions and prevents resin fouling from heavy metals. (Specific to SFT200Fe)

Advanced Usability

Suitable for usage in high hardness levels of up to 2000ppm.* (Specific to SFT200Fe)

*tested under lab conditions.

“A one-time investment to protect you from hard water effects”

Technology

Ion-Exchange technology

Programmability

Intelligent Auto-regeneration

3M WTS Water Softeners

Product code :
WTS28, WTS42, WTS57, IASWTS-85L

State-of-the-art Valve

Our system includes a state-of-the-art valve that allows monitoring and control of every function. The valve helps save water by regulating use and self-regenerating only when necessary.

Trouble-free Design

The superior performance brine tank, featuring a durable design, provides a virtually trouble-free operation.

Low Maintenance

Our system design helps provide long-term operation, reducing frequency of maintenance. Quality factory support and customer service is readily available.

High Performance

The 3M water softener is a high functioning, high capacity system. Our technology ensures you get the best output at the best price.

“Affordable & efficient solution to all hard water problems”

Technology

Ion-Exchange technology

3M WTS Prime Water Softeners

Product code :
IAWTS 57T, IAWTS 85T

State-of-the-art Valve

Our system includes a state-of-the-art valve that allows monitoring and control of every function. The valve helps save water by regulating use and self-regenerating only when necessary.

Trouble-free Design

The superior performance brine tank, featuring a durable design, provides a virtually trouble-free operation.

Low Maintenance

Our system design helps provide long-term operation, reducing frequency of maintenance. Quality factory support and customer service is readily available.

High Performance

The 3M water softener is a high functioning, high capacity system. Our technology ensures you get the best output at the best price.

Soft Water Always

Our system enables you to enjoy 24/7 uninterrupted supply of soft water without a break time for softening.

Limitless Volumes of Soft Water

The system has no limitation on number of daily regenerations it can undergo, hence ensuring no cap on your society's daily water consumption.

“A wholesome water treatment system for your community”

Technology

Ion-Exchange technology

3M Scale Prevention Systems

Product code :
IAS141T, IAS102T, IAS430SS

Zero Water Wastage & No Electricity Needed

Complete green building product

Food Grade Material

Unit is manufactured from FDA CFR-21 compliant material

Simple Fit and Forget

Low maintenance-only cartridge replacement needed

Compact in Size

Can be easily dismantled and carried along

Withstand High Pressure

Can withstand pressure up to 7 bar

Encapsulate Hardness causing Calcium (Ca) and Magnesium (Mg) ions to make them inert

Minerals are retained but the scaling effects of the ions are eliminated

“Effective & inexpensive solution to hard water scaling problems”

Technology

Sequestering technology

Depth filtration

Sediments

Don't let dirty water affect you

You consume water even while brushing and bathing. Can you imagine the water being dirty, muddy. Look closely, the water you bathe with has a lot of impurities from mud and dirt to rust from pipes, algae from storage, the water is filled with suspended particles.

Harmful effects of Sediment

Skin Damage

Sediments in water come in contact with your skin causing irritation and dryness

Hair damage

Sediments in water deposit on your scalp, making your hair rough

Clogging

Muddy water clog your fixtures and pipes, requiring frequent maintenance

Staining

Sediments in muddy water deposit on your floor, discoloring them

3M Whole House Filtration System

Product code :
IAS801F, IAS802F

Zero Water Wastage & No Electricity Needed

Complete green building product

Food Grade Material

Unit is manufactured from FDA CFR-21 compliant material

Simple Fit and Forget

Low maintenance-only cartridge replacement needed

Compact in Size

Can be easily dismantled and carried along

Withstand High Pressure

Can withstand pressure up to 7 bar

“Clear water throughout the house, like it should be”

Technology

Depth filtration

Chlorine

Don't struggle with bad smelling water

Are you suffering from weird smell in your water. If the smell of the water is similar to bleach then it is because of presence of chlorine in your water. Municipal water most often comes treated with chlorine which acts as a disinfectant to prevent water borne disease.

However over-chlorination can leave the water with a bad taste and odor. It can also cause skin tanning and irritation in your eyes.

Harmful effects of Chlorine

Skin Damage

Chlorine damages your skin making them feel dry. It also causes skin tanning along with burning sensation in eyes.

Hair Damage

Chlorine makes your hair brittle and frizzy

Strange Odour

Chlorine leaves the water with undesirable taste and odour

3M Chlorine Removal Systems

Product code :
IAS802C

NSF Certified

Tested and certified with NSF for chlorine reduction.

Zero Water Wastage & No Electricity Needed

Complete green building product

Food Grade Material

Unit is manufactured from FDA CFR-21 compliant material

Simple Fit and Forget

Low maintenance-only cartridge replacement needed

Compact in Size

Can be easily dismantled and carried along

Withstand High Pressure

Can withstand pressure up to 7 bar

“Zero chlorine water for fresh use”

Technology

Pre-Activated Carbon technology

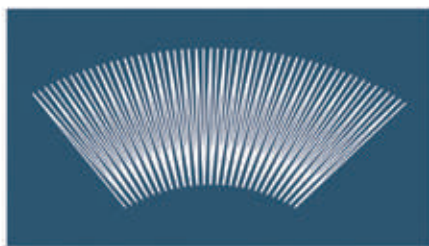

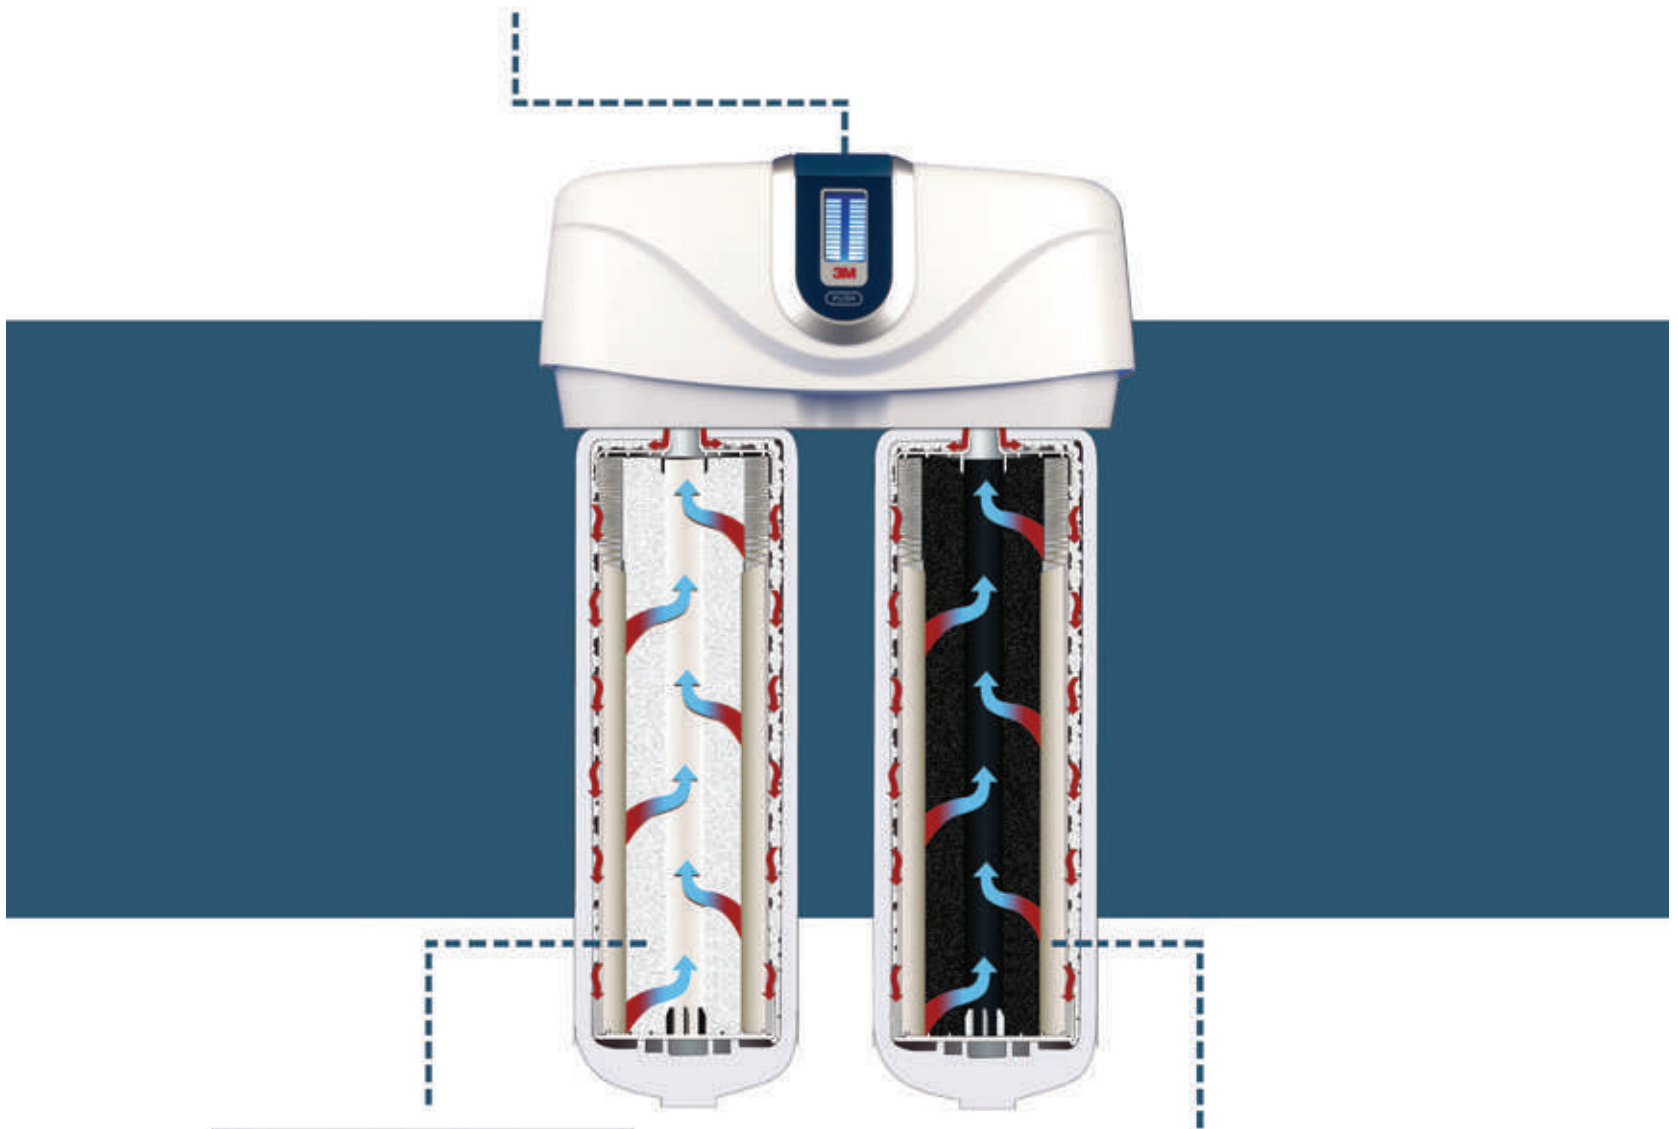

Drinking Water System

3M Proprietary I.M.P.A.C.T TECHNOLOGY (Integrated Membrane Pre-Activated Carbon Technology)

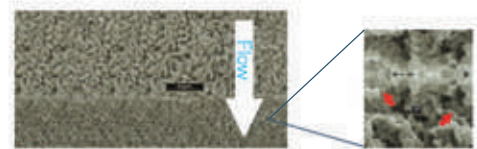

Smart Cartridge Indicator

System comes with a dedicated faucet and intelligent tracking system, providing a visual and audio for cartridge change. Now you can change the cartridge when required, not unnecessarily.

Pre-filtration

Uses premium pleated membrane that reduces dirt, rust and particulate matter.

Fine-filtration (IMPACT)

"Integrated Membrane with Pre-Activated Carbon Technology" with patented pharmaceutical-grade membrane removes 99.99% of all water borne Bacteria, Cysts and Volatile Organic Components (VOCs).

3M Safe Kitchen

Product code :
IAS190S

Benefits

99% of Bacteria Reduction¹

99.99% Bacteria Reduction¹ using I.M.P.A.C.T. Technology
You get 2 lakh Litres⁴ of Pure Water ideal to drink, cook, wash your vegetables etc.

Scale Prevention²

You don't have your kitchen slabs & faucets looking ugly with white water scales and no scales on vessels or dishwasher.

Chlorine Removal

Pre Activated Carbon Technology removes chlorine taste and odour ensuring RECIPE QUALITY WATER retaining the taste of your food.

Retains Minerals

Retains Essential Minerals naturally³

Minimal Maintenance

Patented Sanitary Quick Change Technique for quick and easy maintenance of cartridges.

Zero Water Wastage & No Electricity Needed

The product leaves you guilt free towards the environment by not wasting a single drop of water and by not consuming any electricity.

“2 lakh litres⁴ of pure water for your entire kitchen needs”

1. As tested with E Coli ATGG (11229) or psuedomonas (B) diminuta (19146)

2. Tested and verified by manufacturer's laboratory.

3. For best results install the system upto a TDS of 500 ppm

4. The capacity mentioned is only applicable for chlorine, cyst and particles (NSF Class 1) reduction

3M Ecosip

Product code :
IAS140S

Benefits

99% of Bacteria Reduction¹

99.99% Bacteria Reduction¹ using I.M.P.A.C.T. Technology
You get 1 lakh Litres⁴ of Pure Water ideal to drink, cook, wash your vegetables etc.

Scale Prevention²

You don't have your kitchen slabs & faucets looking ugly with white water scales and no scales water on vessels or dishwasher.

Chlorine Removal

Pre Activated Carbon Technology removes chlorine taste and odour ensuring RECIPE QUALITY WATER retaining the taste of your food.

Retains Minerals

Retains Essential Minerals naturally³

Minimal Maintenance

Patented Sanitary Quick Change Technique for quick easy maintenance of cartridges.

Zero Water Wastage & No Electricity Needed

The product leaves you guilt free towards the environment by not wasting a single drop of water and by not consuming any electricity.

“1 lakh⁴ litres of pure water to last a long time - Efficiency, Effective & Affordable”

1. As tested with E Coli ATGG (11229) or psuedomonas (B) diminuta (19146)

2. Tested and verified by manufacturer's laboratory.

3. For best results install the system upto a TDS of 500 ppm

4. The capacity mentioned is only applicable for chlorine, cyst and particles (NSF Class 1) reduction

3M Smart Drinking Water System

Product code :
DWS2000T

Benefits

99% of Bacteria Reduction

99.99% Bacteria Reduction using I.M.P.A.C.T. Technology

Chlorine Removal

Pre Activated Carbon Technology removes chlorine taste and odour ensuring RECIPE QUALITY WATER retaining the taste of your food.

Sanitary Quick Change

Patented SQC mechanism for easy cartridge change within 10 seconds

Retains Minerals

Retains Essential Minerals naturally

“A smart system to let you control the water you drink”

3M EcoDrink

Product code :
IAS-1500B

Benefits

99.99% Bacteria Reduction

Reduces 99.99% cyst and waterborne bacteria

Chlorine Removal

High performance activated carbon reduces chlorine taste and odor

Sanitary Quick Change

Patented SQC mechanism for easy cartridge change within 10 seconds

Retains Minerals

Retains essential minerals naturally

Compact Design

Undersink installation keeps your kitchen neat and clutter-free

“Make purity your way of life”
